

We are so impressed by the additional credit information services available from EC Credit Control. Everything we need to evaluate a new client's credit risk is available at the touch of a button whenever we need it!

Credit Reporting

EC Credit Control has an alliance with Australia's largest and most sophisticated credit information provider, Equifax. We can supply you with all the latest commercial and consumer* credit information services through our interactive website. EC Credit Control is a single point of contact for your credit information needs.

Equifax obtains credit related information from Australia's major organisations including the Australian taxation office, helping to ensure we can present accurate credit related insights to EC Credit Control users on around 2.5 million entities and their directors across Australia.

One of the key financial challenges facing businesses today is having access to the credit information they need when they need it. The more you know about your customers or potential customers the easier it is to structure a business relationship right from the start. EC Credit Control makes it possible for you to have the right information at your finger tips 24/7.

*Consumer information is only provided where privacy consent has been obtained.

EQUIFAX

TRADING HISTORY REPORTS

Get a more detailed view of the people you are dealing with using Trading History reports. Trading History reports can provide you with powerful insights into the people behind the organisation by offering a deeper level of assessment than our standard enquiry reports. This presents greater information to support decision making and help reduce risk.

MONITORING

The Equifax Alert service enables proactive monitoring of adverse events or changes at ASIC, credit defaults and court information with regards to your customers. If one of them experienced an adverse event tomorrow how would you know about it?

THIRD PARTY DATA

Through the Equifax integrated system you now have access to a complete range of publicly available data from sources such as:

- ASIC – Obtain basic company information and documents online in seconds
- State Business Names – quick efficient checks to confirm identity and ownership
- National Land Titles – ensure that directors' guarantees are worth the paper they are written on. Gain confidence through confirmation of property ownership in real time
